# POPULATION PROGRAM WING

Webpage Review

## MAIN PAGE

1. White text on image without any background color
2. Slider is having 3 images, 2 of those are events from 2022
3. The resolution of pictures is not up to the mark, it pixelates

## PICTURES QUALITY

Just after the events banner, the following section appears. The video thumbnail is not professional, it should be same as video. Once the visitor clicks on video, the new page opens up, there must be option of viewing video in same size on website without any new page. The full screen option should be available in smaller thumbnail.

## Welcome To PPW

Population planning has been a regular feature of periodic-five-year National Development Plans of Pakistan since 1955.

Although Pakistan has one of the oldest family planning programmes in the region yet, strategic disconnects between informed population policies and planning, and socio-economic development has resulted in limited progress not only towards lowering the fertility rates, but also in improving the contraceptive prevalence rates, resulting in a sluggish demographic transition.

World Population Day is Celebrated on 11th July of every year, the website reflects the stats from 2021, 2023's day is upcoming, we can replace 2021 with 2022 for the time being.

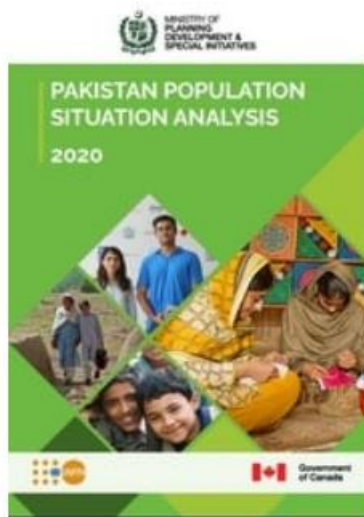

## World Population Day 11th July 2021

*World Population Day is Celebrated on 11th July of every year*

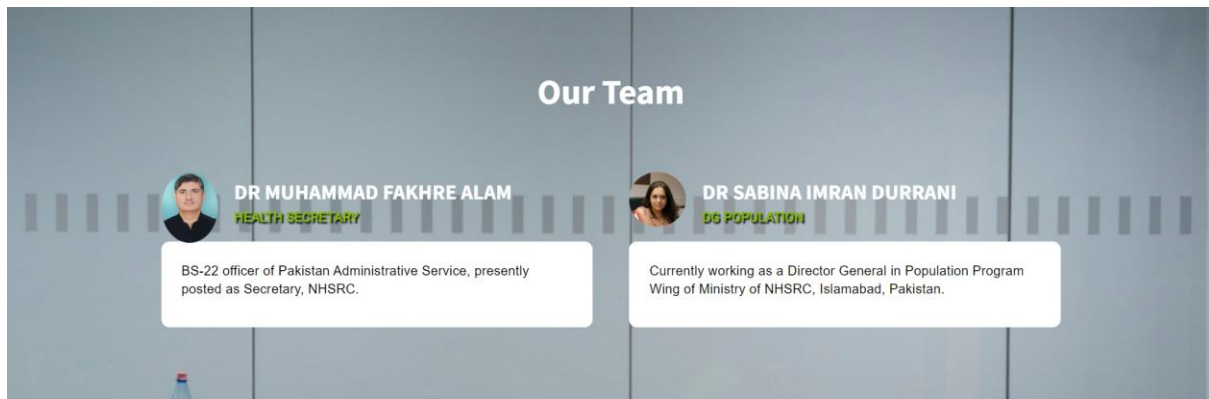

- ✓ Pakistan is the world's 5th most populous country, with the population of over 220 million
  - ✓ Pakistan has the highest population growth rate among SAARC countries at 2.4 percent which means an addition of over 3 million people every year.
  - ✓ Theme of this year's World Population Day is 'Rights & Choices are the Answer; Whether baby boom or bust, the solution lies in prioritizing the reproductive health and rights of all people'
- National narrative of Pakistan on population states; "Parents have the right to freely and responsibly decide the number and spacing of their children to fulfill the fundamental rights of their children and family by maintaining a Balance/ Tawazun between their family size and resources. The Government and society have the responsibility to facilitate parents to achieve this balance by providing universal access to family planning information and services, thereby achieving sustainable development."

The web reflects the situational analysis report of 2022, it is static image only. There needs to be latest report if available and if feasible then it should be clickable & readable.

The background image of "Our Team" needs to be changed, likewise the text color of "Post Title":

## OTHER PAGES

All other pages have static text, which is not interactive. There needs to be smart art usage with some animation for making it more interactive.

### Background Of Population Program Wing

Population Welfare Program was devolved to the Provinces in 2010, under the 18th Constitutional Amendment. Now, provinces are responsible for formulating their respective Population Strategies and implementation of Population Welfare Programs. At the time of devolution, a wing namely Population Programme Wing was created and placed in the Planning & Development Division, Islamabad with the mandate to coordinate at the national & international level in the area of population welfare to advance the agenda of population and development in Pakistan. The Population Programme Wing was shifted from Planning & Development Division to Ministry of National Health Services, Regulations & Coordination (NHSR&C) in 2013. The Population Programme Wing is headed by Director General (Population), M/o NHSR&C.

### Functions Of Population Program Wing

Population Program Wing is Performing Following Functions:-

- i. Develop National Population Policy Framework/Vision
- ii. Develop National Action Plan(s) for execution of the Population Policy Framework/Vision;
- iii. Coordinate with Provincial and Regional Population Welfare Departments (PWDs), NGOs, CSOs and other Organizations working in the field of Reproductive Health and Family Planning (RH&FP); especially for the implementation of National Action Plan
- iv. Coordinate with International Agencies / Organizations to muster financial and technical assistance for population welfare program in Pakistan;
- v. Undertake joint performance review of all implementing partners (PWDs, NGOs, CSOs and Private Sector) and provide technical and professional guidance for effective implementation of RH & FP programmes;
- vi. Develop / Review National Standards and Protocols for capacity building / training on RH&FP and quality assurance for improved RH&FP Service Delivery;
- vii. Coordination for the Central Warehouse & Supplies (CW&S);
- viii. Coordinate the matters relating to the National Trust for Population Welfare (NATPOW) and the National Institute of Population Studies (NIPS);
- ix. Coordination with the provinces/regions to ensure Contraceptive Commodity Security, Supply Chain Management and Warehousing of contraceptives for Provincial and Regional PWDs;
- x. Deal with residual matters of the defunct Ministry of Population Welfare (MoPW).
